Full-Stack Software Engineer with hands-on experience building scalable React and Node.js applications serving thousands of users. Strong foundation in Data Structures & Algorithms, system design fundamentals, and cloud deployments. Seeking an SDE / Full-Stack Engineer role.

Education

OP Jindal University

Bachelor of Technology in Computer Science, **CGPA 8.2/10**

May 2026

Raigarh, CG

Professional Experience

Full-Stack Software Developer Intern

May 2025 – Sep 2025

ABIS Foods Pvt. Ltd.

Rajnandgaon, CG

- Contributed to the development of 3 full-stack web applications (React.js, Node.js, and MySQL) serving 4,000+ users. Added a new business module to an existing CRM system, improving overall project performance.
- Collaborated in Agile teams using Git for version control, participated in code reviews, maintained RESTful APIs, and followed test-driven development practices.

Key Projects:

- Parivartan CRM:** Built a solution with 20+ user roles and a lead management system handling 9,000+ leads daily with automated assignment and tracking.
- Doctor Daily:** Implemented an ERP system featuring geo-fencing for location tracking, offline capabilities using IndexedDB with automatic synchronization, and real-time dashboard achieving 95% user satisfaction.
- ABIS Pro:** Integrated VoIP calling and IVR systems into the CRM panel, enabling lead generation and handling 100+ concurrent calls; reduced call time by 30% and improved resolution rates by 40%.
- Traders Help Desk:** Integrated B2B solutions including SAP ERP and WhatsApp Business API to streamline business processes; reduced response time by 60% and improved customer satisfaction by 35%.

Project Experience

Technorollix – Event Management SaaS | React, Next.js, TypeScript, MongoDB, AWS

Mar 2025

- Built and deployed a scalable full-stack application serving 5,000+ active users across 42+ events. Included features like role-based access control, multi-event team management with invitation workflows, payment tracking with transaction verification.
- Implemented server-side pagination and Excel data exports for 2,000+ records, improving dashboard performance; built a responsive React (shadcn/ui) frontend and deployed on AWS.

Network-Next – Alumni Platform Development | React, Context API, Tailwind, Axios, Express, Socket.io, Razorpay

Dec 2024

- Led front-end development during the Smart India Hackathon, building fully responsive cross-device layouts. Developed end-to-end onboarding, secure JWT authentication, and analytics-driven admin dashboards.
- Scaled to 8,000+ registrations and 250+ events, increasing engagement by 42% and cutting admin time by 50%.
- Built a complete alumni ecosystem with real-time chat, video calls, and job postings. Supported 7,000+ MAU, matched 480 mentor pairs, and processed ₹2+ lakh in donations.

Leadership Experience

Event Management Lead

Mar 2025

Hacksprint 2025

OP Jindal University

- Organized a 30-hour in-person hackathon with 120+ participants at the annual college fest.
- Managed event planning, logistics, and coordination with judges to ensure smooth execution.
